RE: Guardianship of Dorothy Wilson
Index No. 29230-2008

Dear Judge Asarch:

NASGA is following this guardianship case with considerable interest and concern.

Our major focus is on violations of due process, civil and human rights permitted to occur in state probate courts across the country. Our reason for writing to you at this time is to bring your attention to an urgent matter concerning ward Dorothy Wilson.

Dorothy Wilson's greatest fear in her old age is that she would be forced into a nursing facility.

We understand that fear became a reality Monday, August 22, 2011 when Dorothy's court-appointed guardian, Mary Giordano, came to Dorothy's home and told her she needed to go to the hospital emergency room in regard to an issue with bleeding from her recent colostomy surgery. Naturally, Dorothy got in the car.

But, Giordano didn't take Dorothy to the emergency room. Instead, she took her to Meadowcare Nursing Home in Freeport, NY and had her admitted.

Judge Asarch, Dorothy's daughter, Diane Wilson, is ready, willing, and able to provide any care her mother needs. Dorothy's greatest fear need not be her worst nightmare.

We ask you to investigate the suspicious, possibly nefarious, circumstances behind Dorothy's forced admission into Meadowcare and her current confinement. We remind you that guardianship is designed to protect vulnerable people from abuse, even if the abuser is found to be the ward's court-appointed guardian.

We further respectfully ask that if you investigate and find that Mary Giordano is guilty of tricking Dorothy Wilson into Meadowcare as alleged and she is being held against her will, that Mary Giordano immediately be removed as guardian of Dorothy Wilson and disciplined appropriately.

Respectfully,

/s/ Elaine Renoire
